SMART FITTINGS

Prices in Euro currency.
VAT, IVA, MOMS, MwSt, BTW, TVA and any value added taxes not included.
Designing, transport and assembly not included.
Molteni&C Spa reserves the right to makes changes to its products, sizes
and materials at any time and without prior notice.

Molteni & C

Introduction of the open corner element without pillar for the QUICK and A FILO doors.

LED LIGHTING

Vertical lighting is inserted in the full-height panel, positioned in front of the accessory for full lighting, even when the drawer is open.

DRAWER UNITS

Drawer unit with 2/3/4 fully extractable drawers.

The drawer unit can be reduced in width without a filler panel for maximum containment of the drawer.

Handle in black finish.

CLOTHES RODS

Tubes in black finish.

LAMINATE UPDATE

The QUICK door is available with all front piece laminates, combined with a pewter or bronze epoxy finish handle.

A FILO doors also include the Tatami and Chestnut laminates.

TECHNICAL UPDATES

Reduction of the minimum width to 15 mm for assembly in a niche, due to the use of special hardware.

With lighting systems, the minimum height for assembly in a niche is reduced due to the use of inspection panels.

Introduction of the open corner element without pillar for the QUICK and A FILO doors.

This tool was designed to simplify and speed up the quoting phase for the point of sale.

Choice of wardrobe size, including doors.

Choice of interior accessories with predetermined arrangements A, B, C ...

The lighting system can be inserted.

At the end, we have a single quote for the elements in the composition, for possible modification: addition or elimination.

"Smart" handle

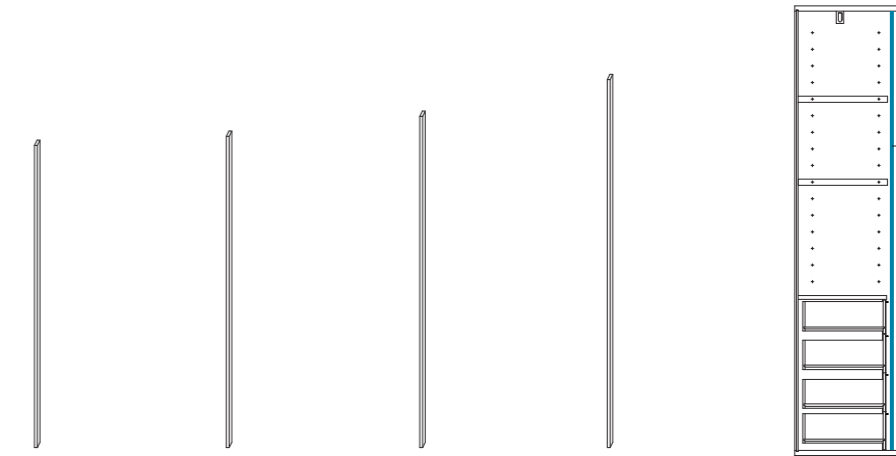

Vertical Internal LED Lighting

The vertical illumination can only be used on central or lateral wooden side panels.
Horizontal and vertical LEDs cannot be used in the same composition.
LED bars can be reduced without a supplementary charge.
Only 220V - Certifications C E

In the case of hinged doors with a lighting system, a minimum space measuring 5 cm in height is required. The height can be reduced to 15 mm by inspection on top cod. PAISPC01 € 157.

Diagram of LED lighting system for compartments without doors

Components

- LED bar, 1 or 2 per compartment
- power supply unit, 1 or 2 per wardrobe depending on total wattage
- connector, 1 per wardrobe
- optional remote control, in the absence of a controlled socket
- optional sensor, in the absence of a controlled socket

Finished compositions H 2631

In addition to the standard elements necessary to build up any customized wardrobe, find below a number of pre-designed wardrobes H mm 2631.

Prices of the compositions are calculated with the external finish of the side panels in melamine structure and with standard handles without surcharge.

Backs are always in melamine.

The tatami and chestnut melamine finishes allow the creation of wardrobes with structures, side panels and doors in the same colour.

The price of wardrobes with TWIN doors always includes a handle in the pair of doors.

Wardrobes with START doors with "CV" handle available only with hinged opening.

Surcharge

Surcharge to be added to composition prices for different external side panels finishes.

Matt lacquer finish € 226 per pair

Glossy lacquer finish € 358 per pair

With external finish in wood, € 578 per pair

Surcharge handles

START door "M" handle € 47 each

GRIP door € 22 each

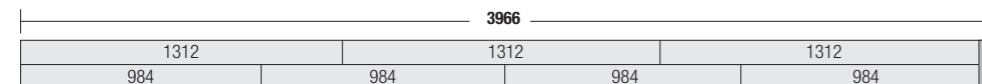

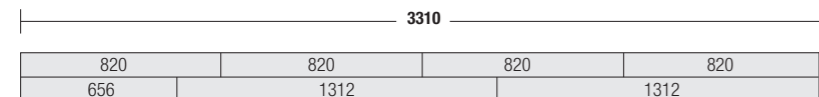

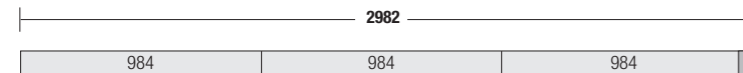

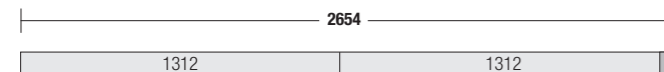

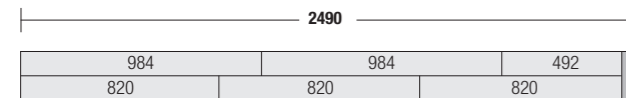

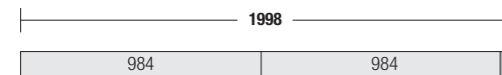

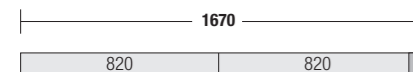

Assembly

Assembly of a wardrobe in an alcove requires a minimum extra side space of 4 cm. This space can be reduced to 15 mm by using special hardware provided on request for the side compartment. Surcharge € 40 per compartment. This hardware may only be applied if there are open compartments, hinged doors and wooden side panels.

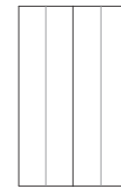

For hinged door wardrobes with lighting systems doors this product requires a minimum height of 5 cm. The height can be reduced to 15 mm by inspection on top cod. PAISPC01 € 157.
